

ACADEMIC POLICIES

EXAMINATIONS

Examinations in courses are provided as a means of evaluating the student's progress in a course. Instructors in the courses determine the number of examinations to be given. All students are expected to take all examinations in an atmosphere of honesty. Students should be aware that Navarro College classes may require a student to take exams at an approved proctoring location such as one of Navarro College's Testing Centers, a similar setting at another approved location, or through a virtual proctoring service. Additional fees may be required for students choosing to take tests at a professor-approved location not affiliated with Navarro College. Students requesting permission to complete examinations at a location other than a Navarro College Testing Center must make prior arrangements with the instructor and must submit a [Navarro College Proctor Agreement](#) at the beginning of the semester.
