

# CHILD DEVELOPMENT

## CHILD DEVELOPMENT - AAS DEGREE PLAN

**PROGRAM INFORMATION:** The Child Development Program is designed to help prepare students to make a positive difference in the growing field of childcare. This program helps prepare successful graduates with the ability to understand the needs of young children including children with special needs and the ability to develop appropriate learning environments for them. Criteria for quality early childhood programs developed by the National Association for the Education of Young Children (NAEYC) have been incorporated into course content. The Associate of Applied Science Degree and three certificates are offered. Every student must complete and pass a background check, and be accepted into a licensed child care program to participate in classroom observations required by various courses in the program. Students should contact the Department Chair for information on requirements for external learning hours.

### FRESHMAN YEAR - FALL

| COURSE SECTION          | COURSE TITLE                      | CREDIT HOURS |
